## **INTRODUCTION**

---

Memes play a crucial role in the digital culture. They serve as an instrument for expression, communication, and most importantly, humor. In this realm, \$KONG is positioned to reshape the scenario of the Cardano Blockchain leveraging one of the most powerful animal known to man. Together with the strength of a united community, we will put our innovative ideas to work.

We started as a memecoin, but we will be much more than that.

Our aim? Till we touch the moon!

## **MISSION**

---

\$KONG's mission is difficult but possible: to establish itself as the largest Cardano Blockchain community.

We are tired of seeing scammers, and bad people gaining traction in the world of cryptocurrencies. We want to make a difference, to be a point of light in the midst of darkness.

We are here to listen the community, and build a healthy and innovative project.

## TOKENOMICS

As has been said before, we do everything with the community in mind, so we burn most of the tokens and LP tokens.

**Token Ticker:**

**\$KONG**

**Total Supply:**

**3.333.333 (3.33M)**

**Team Allocation:**

**99.999 (3%)**

**Burned Tokens:**

**566.666 (17%)**

**LP Tokens:**

**333.333 (10%)**

**Circulating supply:**

**2.333.333 (70%)**

## CONCLUSION

We started as a memecoin, but we want to make a difference on the Cardano Blockchain.

What matters most to us is the community, and we will always listen \$KONG supporters.

We have innovative ideas, a big project, and a lot of work to do. We will do our best.
